Software Engineer

As a Software Engineer at QuantCo, you will build robust and scalable solutions with tangible impact. With full ownership, you will design end-to-end solutions that integrate our industry-leading models into our clients’ businesses. As owner of the process and the code base, you will be responsible for the whole engineering project cycle from high-level system design and prototyping to application development and data integration. In this role, you will bridge the worlds of IT infrastructure and data science. You will work with our clients to understand their technical setups and solicit constant feedback from both clients and colleagues to improve our products with rapid iteration cycles. As such, you will ensure that our solutions provide continuous value to our clients.

Requirements

We are looking for team players with an entrepreneurial mindset that will bring:

- Ability to write clean, effective, and production-ready code,
- Proficiency with programming languages such as Python, Go, Java, C++, R, JavaScript, and/or similar languages,
- Familiarity with data structures, storage systems, cloud infrastructure, front-end frameworks, and similar concepts/tools,
- Demonstrated ability to learn continuously, work independently, and make smart decisions with minimal supervision,
- Adaptability to work effectively in interdisciplinary teams of technical and non-technical individuals with different cultural backgrounds,
- Understanding of how technical decisions impact end-users

Compensation and location

We are looking for exceptionally motivated and skilled individuals and offer a highly competitive compensation package that includes a base salary, bonus, and stock options. We offer software engineers positions in San Francisco, Boston, Berlin, Cologne, and Zurich.

About QuantCo

We leverage expertise in data science, engineering, and economics to help organizations turn data into decisions. Started by 4 PhDs from Harvard and Stanford, we are now more than 75 professionals with extensive quantitative, engineering, and business experience.

Headquartered in Boston, we have offices in San Francisco, Berlin, Cologne, and Zurich. QuantCo’s product line includes algorithmic pricing, data-driven claims management, and high-dimensional forecasting solutions. Our clients are some of the largest financial, retail, and healthcare organizations in the U.S. and Europe.
We are excited about writing code that affects millions of people and impacts billions of dollars. If you feel the same way, we look forward to hearing from you.
